

I am so tired of hearing about telemarketing rights. What about my rights. After working all day, I don't want to come home and hear the phone ringing off the hook with some stupid telemarketer on the other end. If I am on the phone with one of my family, I don't want to be interrupted by someone I have no interest in speaking with. Please, please keep these calls at bay. I DON'T WANT THEM. I have always signed up for the no call list. It is MY RIGHTS that are being violated by recinding this list!!!!
